Young Scientists' Forum

Mark Theobald

What is the Young Scientists' Forum?

What was discussed?

- **Summer Schools**
- **New initiatives/mini-projects**
- **Working with secondary schools**
- **A network of learning**
- **Communication**
- **Other ideas**

Summer Schools

- **Austria 2006**
- **Ideas for future Summer Schools**

New Initiatives / mini projects

- **Problems to solve**
- **Young scientists working together**
- **Already some ideas:**
 - Experimental process study in a small agricultural creek
 - N_2O emission measurements from various organic N sources
 - $\text{N}_{\text{inorg}}/\text{N}_{\text{org}}$ ratio study across hydrological systems

Working with secondary schools

- **N cycle already part of curriculum**
- **Component 9: Scientist-School partnerships**
- **Communicating NEU science**
- **Promoting science in schools**
- **Ideas**

Network of learning

- **Institutes offer specialist training**
- **Funded through NinE programme ?**

Communication

- **NEU Web Portal Forum**
- **Problem solving**
- **Collaboration between Young Scientists**

Other ideas discussed

Communication of Young Scientists' work

Summary of actions:

- **Web Portal Forum set up**
- **Building the forum online**
- **Input to the planning of 2006 Summer School**
- **Training opportunities for Young Scientists**
- **Developing initiatives**
- **Ideas for 2nd Summer School**
